

ARSHIT DHIMAN Frontend-Focused Full Stack Engineer React Performance & AI Integration Specialist 📍 Hamirpur , HP 📞 +918352015927 ✉ arshitworkmail@gmail.com 🌐 https://arshitportfolio.vercel.app				
Summary	Frontend-focused Full Stack Engineer specializing in React.js, performance optimization , and scalable frontend architecture. Delivered measurable improvements, including 30% faster rendering and 25% reduced API latency across production systems , with hands-on experience in AI-powered web applications .			
Education	AlmaBetter – E&ICT Academy, IIT Kanpur SOFTWARE DEVELOPMENT CGPA: 8.9 / 10 2023 Self-Learner Continuous Skill Development Online Certified Training YouTube, Coursera, Udemy, freeCodeCamp, Stack Overflow, GitHub,			
Experience	Soffuture – Future Inn-Tech Corp Frontend Developer 🌐 https://soffuture.club Jul 2025 – Jan 2026 DELHI - Architecting and maintaining scalable MERN applications for enterprise-grade use cases. - Designed modular frontend architecture with reusable component patterns and clean separation of concerns. - Optimized frontend rendering performance and API response efficiency. Zidio Web Developer - Intern Apr 2025 – Jul 2025 - Enhanced application performance by 30% through React rendering optimization and API refactoring. - Reduced state-related latency by 25% using improved Zustand-based architecture. Fiverr Freelance Full Stack Developer Jan 2023 – Present Remote - Delivered scalable production-ready web applications for international clients, handling full lifecycle from architecture to deployment. - Built scalable booking systems, payment integrations, and admin dashboards.			
Projects	Neogen AI – Real-Time AI Chat Platform 🌐 https://neo-gen-ai-olive.vercel.app/ - Developed a real-time AI chat platform with streaming responses and secure API integration - Integrated secure OpenAI APIs with rate limiting and error handling. OomamiMeats – Production E-commerce Platform 🌐 https://www.oomamimeats.com/ - Implemented scalable checkout and order management system. - Designed optimized product listing with performance-focused rendering. Pooja Jewellers – E-commerce Website 🌐 https://poojajewellers.co.in/ - Built responsive catalog-driven platform. - Improved performance and SEO optimization. - Ensured mobile-first UI/UX design.			
	MediGo – Doctor Appointment & Payment Platform 🌐 https://medigoo.netlify.app - Developed a full-stack booking system with secure authentication. - Integrated Stripe payment gateway for real-time transactions. DataXL – Interactive Data Insight Platform 🌐 https://dataxl.vercel.app - Built an Excel-to-insight web app supporting .xlsx, .xls, and .csv uploads with instant table previews and real-time data visualisations. - Enhanced client-side rendering and state management to efficiently handle large datasets.			
Skills	Programming Languages ● ● ● ● ● JavaScript (ES6+), TypeScript, Python Database ● ● ● ● ● MongoDB	Frontend ● ● ● ● ● React.js, Next.js, HTML5, CSS3, Tailwind CSS, ShadCN UI, Material UI, GSAP, Three.js DevOps & Cloud ● ● ● ● ○ Docker, AWS, Vercel, Netlify	Backend: ● ● ● ● ● Node.js, Express.js, REST APIs, GraphQL Visualization & Tools ● ● ● ● ● Chart.js, Git	State Management ● ● ● ● ● ○ Zustand, Redux
CORE COMPETENCIES	FRONTEND & ARCHITECTURE EXPERTISE - Scalable Frontend Architecture - Performance Optimization & Rendering Control - Reusable Component Systems - AI Integration in Web Applications		BACKEND, SYSTEMS & DEPLOYMENT - REST API Design & Integration - System Design Fundamentals - Cloud Deployment (AWS, Vercel, Netlify , Render)	
Awards	State Level Champion - Awarded by Government of Himachal Pradesh Letter of Recommendation AlmaBetter – E&ICT Academy, IIT Guwahati LOR for Technical Excellence		Winner – IIT Delhi Hackathon IIT DELHI (BeCon) - Facial Recognition Attendance System using ML & OpenCV Top 3 Finisher Himachal Sports Association 100m Race (Athletics)
