

ARSHIT DHIMAN Frontend-Focused Full Stack Engineer React Performance & AI Integration Specialist 📍 Hamirpur , HP 📞 +918352015927 📧 arshitworkmail@gmail.com 🔗 https://arshitportfolio.vercel.app				
Summary	Frontend-focused Full Stack Engineer specializing in React.js , performance optimization , and scalable frontend architecture. Delivered measurable improvements, including 30% faster rendering and 25% reduced API latency across production systems , with hands-on experience in AI-powered web applications .			
Education	AlmaBetter – E&ICT Academy, IIT Kanpur CGPA: 8.9 / 10 🔗 https://www.almabetter.com/ Self-Learner Continuous Skill Development Online Certified Training YouTube, Coursera, Udemy, freeCodeCamp, Stack Overflow, GitHub,			
Experience	Soffuture – Future Inn-Tech Corp Frontend Developer 🔗 https://soffuture.club - Architecting and maintaining scalable MERN applications for enterprise-grade use cases. - Designed modular frontend architecture with reusable component patterns and clean separation of concerns. - Optimized frontend rendering performance and API response efficiency.		Jul 2025 – Jan 2026 DELHI	
	Zidio Web Developer - Intern - Enhanced application performance by 30% through React rendering optimization and API refactoring. - Reduced state-related latency by 25% using improved Zustand-based architecture.		Apr 2025 – Jul 2025	
	Fiverr Freelance Full Stack Developer - Delivered scalable production-ready web applications for international clients, handling full lifecycle from architecture to deployment. - Built scalable booking systems, payment integrations, and admin dashboards.		Jan 2023 – Present Remote	
Projects	Neogen AI – Real-Time AI Chat Platform 🔗 https://neo-gen-ai-olive.vercel.app/ - Developed a real-time AI chat platform with streaming responses and secure API integration - Integrated secure OpenAI APIs with rate limiting and error handling.		MediGo – Doctor Appointment & Payment Platform 🔗 https://medigoo.netlify.app - Developed a full-stack booking system with secure authentication. - Integrated Stripe payment gateway for real-time transactions.	
	OomamiMeats – Production E-commerce Platform 🔗 https://www.oomamimeats.com/ - Implemented scalable checkout and order management system. - Designed optimized product listing with performance-focused rendering.		DataXL – Interactive Data Insight Platform 🔗 https://dataxl.vercel.app - Built an Excel-to-insight web app supporting .xlsx, .xls, and .csv uploads with instant table previews and real-time data visualisations. - Enhanced client-side rendering and state management to efficiently handle large datasets.	
	Pooja Jewellers – E-commerce Website 🔗 https://poojajewellers.co.in/ - Built responsive catalog-driven platform. - Improved performance and SEO optimization. - Ensured mobile-first UI/UX design.			
Skills	Programming Languages ●●●●● JavaScript (ES6+), TypeScript, Python	Frontend ●●●●● React.js, Next.js, HTML5, CSS3, Tailwind CSS, ShadCN UI, Material UI, GSAP, Three.js	Backend: ●●●●● Node.js, Express.js, REST APIs, GraphQL	State Management ●●●●○ Zustand, Redux
	Database ●●●●● MongoDB	DevOps & Cloud ●●●●○ Docker, AWS, Vercel, Netlify	Visualization & Tools ●●●●● Chart.js, Git	
CORE COMPETENCIES	FRONTEND & ARCHITECTURE EXPERTISE - Scalable Frontend Architecture - Performance Optimization & Rendering Control - Reusable Component Systems - AI Integration in Web Applications		BACKEND, SYSTEMS & DEPLOYMENT - REST API Design & Integration - System Design Fundamentals - Cloud Deployment (AWS, Vercel, Netlify , Render)	
Awards	State Level Champion Awarded by Government of Himachal Pradesh		Winner – IIT Delhi Hackathon IIT DELHI (BeCon) Facial Recognition Attendance System using ML & OpenCV	
	Letter of Recommendation AlmaBetter – E&ICT Academy, IIT Guwahati LOR for Technical Excellence		Top 3 Finisher Himachal Sports Association 100m Race (Athletics)
